

Meet Your Chapter Officer:

Susanna S.

If you haven't met Susanna yet, you should do so. She is a soft spoken, wonderful person with a warm heart, and does a lot for this Chapter. For a volunteer, she wears many 'hats'.

She joined the Sunset HOG Chapter in 2019 when the annual meeting was held at Alpenrose for an ice cream social. She remembers sitting in the bleachers during the time when Gary S. and David B. were the Chapter's Director, and Assistant Director.

In 2022, having no experience or any idea what she was in for, she volunteered as Tech Officer, to help set up a sound system and computers for the monthly Chapter meetings. In 2023, in addition to being a tech person, she took on secretarial duties due to the job being vacant for nearly a year. These duties branched out into more administrative privileges, but with more time consumption, such as: membership renewals, website content management, private Facebook page admin, monthly newsletter creation, and HOG[SCAN], all multiple things which help make the Chapter run successfully today.

Susanna owned/operated a local mortgage brokerage firm for 30 years. Her present life is managing a home on a small amount of acreage which includes maintaining and harvesting fruit trees, extensive gardening with produce going to the needy. Susanna's immediate family

Continued from page 5

is Jerry (devoted husband and a Harley rider), daughter and her husband with their 11-year-old grandson who's into Lego and My Hero Academia. Susanna's and Jerry's furry dog family includes a 12-year-old named Ponzi, and a 5-year-old named Bear.

Both Susanna and Jerry enjoy adventures on their 2023 Ultra Limited Anniversary Edition. They enjoy cruising through the farmlands during all the seasons. They also frequent the back roads from Monroe, then onto Florence via Triangle Lake, venturing up the coast stopping in Waldport or Newport for chowder before heading home. No trips longer than a day, since the dogs can't come with them---and Jerry says no to a sidecar.
