

The HOWARD family (6)

Tarvares was born on November 4, 2011. On December 13, 2013, he was taken to the hospital for vomiting. A CT scan revealed a brain tumor that required emergency surgery. He was rushed to Sunrise Children's Hospital and underwent surgery the next day. Between December 2013 and January 2014, Tarvares endured multiple procedures, including brain surgery, placement of a feeding tube, and a permanent shunt. He also suffered a stroke and seizures. On January 23, he was transferred to Rancho Los Amigos rehab center in California, where he relearned basic functions. Returning home in March 2014, Tarvares continued therapy with a team of specialists. In April 2015, he had reconstructive skull surgery. Now in 8th grade and enrolled in mostly general education classes, Tarvares has made remarkable progress. He still faces challenges with daily tasks but continues to grow stronger every day with determination and support.
