

The 5 or 10 Points of summer are upon us, here is this years list and as you can tell the Theme is Fish Hatcheries. I have given you the Grid Coordinates (decimal degrees) along with the approx street address, since some of the hatcheries do not have an actual street address. If using google maps or apple maps you can just type in the coordinates and it will show you where they are located. Remember the picture rules 1 of you, the location and bike. Or 2 pictures 1 of you and Fish Hatchery sign and a second picture of bike in parking lot. Then Email to [5points@tacomahog.com](mailto:5points@tacomahog.com) you can send them as you visit the sights don't have to wait until you get them all.

Any questions you can email me at [5points@tacomahog.com](mailto:5points@tacomahog.com)

Name	Location Grid Coordinates (Decimal degrees)	Region	Town	Street address
