

Dear Fellow Sunset HOG Members,

We are excited to officially invite you to register for the 2026 North Meets South Rally, taking place July 9–12, 2026, here in Portland, Oregon.

This year's rally is especially meaningful for our chapter, as Rose City HOG is proud to serve as host chapter for this outstanding event. North Meets South has long been a special tradition that brings together HOG members from across the region for several days of riding, fellowship, and shared Harley-Davidson spirit. In 2026, we have the privilege of welcoming riders to our home region and showcasing some of the very best riding and hospitality the Pacific Northwest has to offer.

From the Columbia River Gorge to the Willamette Valley, the Cascade Range, and the Oregon Coast, this rally is being built to deliver an unforgettable experience for all who attend. Beyond the rides themselves, North Meets South is about connection, camaraderie, and the opportunity for our chapter to come together in support of something truly special.

We encourage all Sunset HOG members to register early, make plans to participate, and help us show visiting riders what makes riding in the Pacific Northwest so exceptional. Your involvement matters. Whether you participate as a rider, volunteer, supporter, or all of the above, your presence will help make this event a success.

Please note that the North Meets South Rally is open only to registered participants. Registration will close once we reach 300 participants (we are getting close) or on June 9, 2026, whichever comes first. We strongly encourage you to register as soon as possible to secure your spot.

To learn more and register, please visit:

www.northmeetssouth.info

We hope you will join us for what promises to be a memorable and meaningful weekend. Thank you in advance for supporting Rose City HOG, North Meets South, and Volcano Harley-Davidson as we prepare to host this major event.

Ride safe, and we look forward to seeing you there.

Sincerely,

Lee McCarty, Director
Rose City HOG Chapter #5229
